DETAILED ACTION

1. In response to the Preliminary Amendment filed on June 16, 2006, claims 25, 28-33 have been cancelled, claims 1-24, 26-27 and the newly added claim 34 are pending.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-18, 24, and 34, drawn to a laryngoscope with time indicating means.

Group 2, claim(s) 19-23, 26, and 27, drawn to a laryngoscope with non-pressure sensing means.

3. The inventions listed as **Groups 1** and **2** do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: **Group 1** has the special technical feature of time indicating means that indicates the remaining time before termination of a procedure, which **Group 2** lacks. **Group 2** has the special technical feature of non-pressure sensing means with a sensor disposed on a blade, which **Group 1** lacks.

Art Unit: 4177

4. A telephone call was made to Mr. Jay Bondell on 1/7/10 and 1/12/10 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
